## The Shopkins Cutie Car Number 11 Ride

### New and Exciting Licensed Ride

Jolly Roger is pleased to introduce the amazing two seat Shopkins Cutie Car ride, ideal for children in the 3 – 7 age group.

### Interactive Play

This is designed after the Number 11 Melon Car, of the Shopkins Cutie Car Collection, which allows up to two children to ride in this exciting and interactive ride!

The Shopkins range, and the Cutie Car in particular, remains immensely popular. Giving the children a chance to ride in style in the Melon Car, which features interactive sounds and licensed theme music.

### Features

The ride can be fitted with a mechanical or electronic coin acceptor for virtually any currency, note readers, contactless facilities or swipe card, or a combination of any two.

### Durable Glossy Material

The ride is manufactured in a durable gelcoat, which provides a high quality glossy finish. The ride is finished off in brilliant pink, both keeping the identity of the Ride's license and giving a contrast attractive to children.

### Safety Standards

Jolly Roger is owned by Photo-Me International.

All of the Photo-Me children's rides conform to the relevant safety standards and Photo-Me is a member of the British Amusement Catering Trades Association (BACTA) and the Amusement Devices Inspection Procedure System (ADIPS). Safety is also a major concern during the survey and installation process.

### Benefits To The Site Owner

Installing a Photo-Me Kiddie Ride provides substantial revenue at no additional cost. Our rides encourage parents with young children into retail environments and therefore increase shopper footfall.

Rides can also help reduce the stress of shopping with young children. By creating a child friendly environment, parents are more likely to stay longer at retail as they combine shopping and entertainment.

A ride can also help to increase sales of associated merchandise within the store. This ride will be a colourful addition to any retail environment and will keep your customers coming back!

## Technical Specifications

Dimensions:	L: 1550mm	W: 1000mm	H: 1200mm
