BYKERO

The latest cutting edge innovation in interactive kiddie rides

AN INTERACTIVE SPORTS BIKE

Photo-Me and Jolly Roger Amusement rides are pleased to introduce their latest cutting edge innovation in interactive kiddie rides: the "Bykero". This new creation from the world leader in amusement rides is an interactive one seater children's ride aimed at the 3 to 7 age group.

FEATURES

Fitted with multiple LED flashing lights and a realistic engine sound, this sports bike will attract young customers thanks to its eye-catching and vibrant design. The sound of this luxury sports bike revving its engine makes children feel more excited.

INTERACTIVE PLAY

This ride is equipped with an interactive handle which, when spun, triggers the speedometer and the roar of the sports bike's engine. The ride is also fitted with two flashing buttons for additional sounds.

DURABLE GLOSSY MATERIAL

The ride is manufactured in a durable gelcoat which provides a high quality glossy finish. The ride is available in a range of standard colours but specific colours or bespoke customisations could be offered subject to additional costs.

OPTIONS

The ride can be fitted with either a mechanical or electronic coin acceptor and set up to take most worldwide currencies

SAFETY STANDARDS

All of the Photo-Me children's rides conform to the relevant safety standards and Photo-Me is a member of the British Amusement Catering Trades Association (BACTA) and the Amusement Devices Inspection Procedure System (ADIPS). Safety is also a major concern during the survey and installation process.

BENEFITS TO THE SITE OWNER

Installing a Photo-Me Kiddie Ride provides substantial revenue at no additional cost. Our rides encourage parents with young children into retail environments and therefore increase shopper footfall.

Rides can also help reduce the stress of shopping with young children. By creating a child friendly environment, parents are more likely to stay longer at retail as they combine shopping and entertainment.

A ride can also help to increase sales of associated merchandise within the store. This ride will be a colourful addition to any retail environment and will keep your customers coming back!

Please note the Bykero bike has no affiliation with any brands, trademarks, motor racing teams and/or related sports companies.

About Jolly Roger

Jolly Roger (Amusement Rides) Limited is the world's leading manufacturer of licensed and premium coin operated kiddie rides. Since 1988, Jolly Roger has built its leadership position and reputation for quality by incorporating innovative design. All of the Photo-Me children's rides conform to the relevant safety standards and Photo-Me is a member of the British Amusement Catering Trades Association (BACTA) and the Amusement Devices Inspection Procedure System (ADIPS).
